

## IASO AWARD PAPERS

Sno	Hall	Date	Time				Abstract ID	Title
1	Hall A	28-09-2024	07:15	Dr.	Shubhashree	M	NATCON24_ABS_M6432	Title: Patient-Reported Outcomes Following Breast Cancer Surgery: A Study Using the BREAST-Q Module.
2	Hall A	28-09-2024	07:21	Dr.	Chinmay	Bagla	NATCON24_ABS_O9849	Current Landscape and Challenges of Breast Cancer Genetics at a Tertiary Care Centre in India
3	Hall A	28-09-2024	07:27	Dr.	DIMPLE	GUPTA	NATCON24_ABS_B7901	CAN MUTATIONAL ANALYSIS OF NA?VE NMIBC TUMORS REVEAL AGGRESSIVE TRAITS AND IMPROVE CLINICAL EVALUATIONS?
4	Hall A	28-09-2024	07:33	Dr.	Aditi	Deewan	NATCON24_ABS_O7586	LONG TERM KIDNEY OUTCOMES IN PATIENTS UNDERGOING RADICAL CYSTECTOMY - REPORT FROM A SINGLE QUATERNARY CARE CENTRE IN INDIA
5	Hall A	28-09-2024	07:39	Dr.	MOHAMMAD MASOOM	PARWEZ	NATCON24_ABS_U2141	A study to assess the surgical outcome in patients of advanced epithelial ovarian carcinoma undergoing primary debulking surgery versus neoadjuvant chemotherapy followed by interval debulking surgery
6	Hall A	28-09-2024	07:45	Dr.	Harish	N L	NATCON24_ABS_F2705	ProMise Classifier-Defined Mutational Landscape of Endometrial Cancer in India: A Multicenter Observational Analysis
7	Hall A	28-09-2024	07:51	Dr.	PRATIK	SOLANKI	NATCON24_ABS_I4001	TDAP and LTAP free flaps: A better option for soft tissue reconstruction after oral cancer surgery
8	Hall A	28-09-2024	07:57	Dr.	Arun Mitra	Singamaneni	NATCON24_ABS_O1958	Pre operative radiation followed by definitive surgery for cT4 Adenoid cystic carcinoma maxilla - A novel approach
9	Hall A	28-09-2024	08:03	Dr.	Bhagyashree	Deshmankar	NATCON24_ABS_U6769	Preserving the reverse flow in facial artery : A novel technique to prevent marginal necrosis associated with midline lipsplit incisions !
10	Hall A	28-09-2024	08:09	Dr.	DHIRAJ	KACHARE	NATCON24_ABS_W1333	Worst Pattern of Invasion: A novel histopathological parameter that impacts Adverse Prognostic Factors Recurrence Patterns and Survival in Oral cancers.
11	Hall A	28-09-2024	08:15	Dr.	Jyoti	Sharma	NATCON24_ABS_X2403	Gut Microbiome Signature in Indian Colorectal Cancer Patients: An Exploratory Research!
12	Hall A	28-09-2024	08:21	Dr.	Saumya	Mishra	NATCON24_ABS_C4365	PROSPECTIVE RANDOMIZED PILOT STUDY TO COMPARE LONG COURSE CHEMO RADIOTHERAPY FOLLOWED BY SURGERY AND ADJUVANT CHEMOTHERAPY Versus TOTAL NEO ADJUVANT THERAPY FOLLOWED BY SURGERY IN LOCALLY ADVANCED
13	Hall A	28-09-2024	08:27	Dr.	Nishtha		NATCON24_ABS_K9393	Fluorescence guided lymphadenectomy improves detection of small lymph-nodes and lymph-nodal harvest in patients of rectal cancer treated with Neoadjuvant Chemoradiation: Propensity matched analysis
14	Hall A	28-09-2024	08:33	Dr.	SANJAY	SINGH	NATCON24_ABS_A8749	Learning curves for minimally-invasive Intersphincteric resection using risk-adjusted cumulative sum curves
15	Hall A	28-09-2024	08:39	Dr.	Sivakumar	Mahalingam	NATCON24_ABS_E3788	Transplant Oncology: The Next Frontier - Successful Isolated Small Bowel Transplant for Large Complex Desmoid Tumor with Intestinal Failure in Familial Adenomatous Polyposis
16	Hall A	28-09-2024	08:45	Prof.	Rajkumar	Kottayasamy Seenivasagam	NATCON24_ABS_S8483	Understanding the Correlation Between Social Determinants of Delays in Diagnosis Management and Outcomes for Solid Cancers in Tamil Nadu - A Multicentric Mixed Method Study
17	Hall A	28-09-2024	08:51	Dr.	Shouptik	Basu	NATCON24_ABS_L1499	iCRS Alert: A novel predictive model and smartphone application utilizing Inflammatory Biomarkers to predict postoperative complications in Carcinoma Ovary patients undergoing Interval Cytoreductive Surgery and HIPEC.
18	Hall A	28-09-2024	08:57	Dr.	Varun	TN	NATCON24_ABS_D7419	Striving for textbook outcomes in esophagectomy – experience of first 100 patients from a tertiary cancer care center in Southern India.
19	Hall A	28-09-2024	09:03	Dr.	PRATAP KUMAR	DEB	NATCON24_ABS_X7689	Response of Gastric Adenocarcinoma to Neoadjuvant Chemotherapy with respect to the presence or absence of HER2 Overexpression: A Prospective Observational Study.
20	Hall A	28-09-2024	09:09	Dr.	Kaival	Gundavda	NATCON24_ABS_S4316	Intraoperative revision of a positive proximal resection margin is associated with improved survival in patients undergoing resection for gastro-esophageal junction and proximal third gastric cancer.
21	Hall A	28-09-2024	09:15	Dr.	Aditi		NATCON24_ABS_O8220	Clearance of positive margins on frozen section in carcinoma breast - is it good enough ?
22	Hall A	28-09-2024	09:21	Dr.	Anand	Thomas	NATCON24_ABS_Q5180	Clip and Blue – an easy and cost-effective prechemotherapy localisation technique in breast cancer patients planned for breast conservation.
